This slide & speaker program will illustrate the uses of this historic painting and decorative technique known as *Trompe l'oeil*. Used for centuries to "fool the eye" - not every mantelpiece is really marble.

Teresa Vitale from TAV Designs presents examples from her 25 years of experience living and working in this field. A self-taught artist, she creates original, one-of-a-kind faux finishes on a wide variety of surfaces. Her work can be found in numerous commercial and residential establishments in the central NY area including Fanny's Restaurant in Buffalo, NY. She has lived in the Finger Lakes region for over 20 years.
